

Show Your Thinking

Use a variety of **TECHNOLOGY TOOLS** to help your students “**summarize**” often as they make their thinking visible. Learn to use “**short and quick**” reviews as well!

WHY Take Time to Summarize:

- Conversation with others can support metacognition
- “Quick writes” can strengthen content area learning
- Provide students opportunities for summarizing and debriefing
- Encourage students to incorporate self-monitoring and self-assessment

WHEN to Summarize:

- Throughout the lesson activities--individually, with partners, as a group or entire class---not just at the end!

Walk-About Sharing and Learning:

- Find one difference or new piece of information to add to yours
- Look for keywords, or _____
- Ask a question; incorporate Bloom’s taxonomy
